## PROFILE:

As a highly motivated and passionate individual with a deep love for programming, I am excited to present my resume for your consideration. Throughout my career, I have consistently demonstrated my ability to work collaboratively within team environments, leveraging my strong communication and interpersonal skills to build strong relationships and achieve shared objectives. I take pride in my ability to learn quickly and apply my knowledge to practical situations, consistently pushing myself to grow and develop my skills further. Whether working on complex projects or tackling new challenges, I am always eager to put my expertise to the test and do my best work. I am confident that my skills and experience make me an excellent candidate for any role in the programming field.

---

## EDUCATION:

### Bachelor of Computer Science: Software Engineering

2020 - 2023

Edith Cowan University

**Relevant Units:** Object-oriented Analysis and Design, Software Testing, Introduction to Mobile Applications Development, Data Structures, Object-oriented Programming with C++, Systems and Database Design, Applications Development, AI software development (facial recognition), full stack development of an ASP.NET application.

---

## SKILLS SUMMARY:

### *Communication*

- Proficient in multiple languages (English and Afrikaans).
- Strong communication skills used to accurately capture client input and communicate effectively with team members.
- Can produce highly readable and concise internal and external documentation for all software projects.
- Public speaking skills, can adequately present information sessions or presentations in person and online.
- Proficient in using a range of communication software such as MS teams, TS, Skype, and Discord.

### *Teamwork*

- During my multiple projects I completed throughout my studies, I communicated effectively and worked well in a team.
- For the major project in my project management unit, I acted as team leader and had to organise workload, meeting times and host multiple online meetings.
- Utilised scrum meetings during group projects to ensure all team members are up to date.

### *Technical Experience*

- Competency with using scheduling and planning tools such as Scrum boards (Trello) and Gantt charts.
- Experience using multiple programming languages such as: Python, C#, C++, Lua, HTML, CSS, SQL and Java.
- Experience with using the ASP.NET framework for application design, front and backend experience.
- Experience with OpenCV and facial recognition tools used in Python (Implemented a facial recognition system during Artificial Intelligence Unit)

---
